The Danger of Eating Too Much.

"Nobody ever repented of eating too little," was the sage remark of an SATURDAY, . . . JUNE 10, 1876. old gentleman on the verge of ninety, next to whom the writer had the pleasure of sitting at dinner the other night. The host was pressing him While all Arizona is dry and parch- to take more and urging him in the ed at this season, and has been for usual phrase, "Why, you have eaten months, and while the the thirsty scarcely nothing!" Now, it is to be Wholesale and Retail Dealers traveller on the far stretching des-words indicated one of the by-ways erts which extend for miles on either to good health, along which he had side of the Colorado, looks and longs travelled through his life, and to GENERAL MERCHANDISE Pacific States. in vain for running water, the Col. which he owed his present remarkably orado river is constantly rising and the waters are rushing in a maddening always been a small feeder. "Yes," flood within its banks to the sea, he answered, "ever since I was two With these contrasts in view, the or three and twenty; up to that time following article condensed by the Rocky Mountain Presbyterian from Major Powell's "Explorations of the Could, in the hope of becoming strong. New York, Published by D. Appleton & Co. Colorado River," will prove interest- All my friends and the doctors backed Colorado River, "will prove interesting and instructive for young seeping. It is shown the first each insert and its restress at what the architecture of a people, the waste in the secretary and the people in the descriptions of the secretary and the people. Both we waster sides of the most of a people, and the methants are more treated at wheat the architecture of a people, and the people ong since extinct, soften a more than people. Both the secretary of the secretary of the restriction of the secretary of the secretary of the restriction of the secretary of the secretary of the restriction of the secretary o me in my error; but fortunately I the towers serenades, the festive somes solitade of the upper mountain region, and the religious chants of these wonder and people. For the scholar we need not say that the wark has never known an equal, as our own word would be tame compared to the highly Eastering leights which have been received from the most eminent men of letters in England and America.

In concinsion, all classes can find some its way as turbid floods into the Gulf of Lalifornia, two thousand miles away. Besides these two main branches of the work of particular interest to them. And taken as a whole it cannot care to a knowledge of the past history, present resources and future prospects of the great western coast—our adopted home.

Interesting in matter, standard in character, its a literary monument that will forever reflecthonorable credit to the coast, as through the pages the fact will be carried the extinct ength and breadth of the land that although we have wealth united the extinct ength and breadth of the land that although we have wealth united the extinct street, San Francisco.

J. S. Mansteld,
